

Verdurabrand[®]

The first name in frozen gourmet prepared vegetables

Dear Store Manager:

You are my favorite store for amazing food and groceries! I find myself in your market on a regular basis because you offer so many products that I love to take home and enjoy with family and friends. As a loyal customer, I would like to request that **Verdurabrand Frozen Gourmet Prepared Vegetables** be offered in your store!

Verdurabrand Gourmet Prepared Vegetables can be available for sale in the frozen section of your store. These frozen gourmet vegetables are sold in their signature “see-through” 8 and 12 ounce microwaveable/boilable pouches. They are ready from freezer to table in 5 minutes and make a perfect instant side dish. Easily incorporated into many recipes, they help create a wonderful healthy daily option for me. **Verdurabrand has 12 varieties that include Sautéed Spinach, Broccoli Rabe, Red Beets, Baby Bok Choy, Peas with Pancetta, Escarole & Beans, and Eggplant and Plum Tomato.** A convenient wire basket is also available for your display case.

Please help make my meal preparation healthier and stress-free, by including these delicious vegetables in your freezer section. Simply call them at 561.289.4025 and/or visit www.verdurabrand.com for more information.

Sincerely,

Your Loyal Patron
